

NEW HOSPITAL MAY BE ERECTED IN OLDS

A well attended meeting of those who have subscribed to the proposed new hospital between Olds and Didsbury, was held in the Arena Auditorium at Olds on Monday night, December 29th.

In view of the fact that no support for the plan was received from either Didsbury or Carstairs, it was moved and carried unanimously that a hospital be built right in Olds.

It was felt that the same voluntary scheme for raising money should be adopted as in the larger plan.

However, before proceeding with the plans for the new hospital in Olds it was deemed advisable to interview the Minister of Health regarding the proposals made. Norman Cook, M.L.A., and Stan Edwards, secretary, were appointed as a delegation to go to Edmonton at the earliest possible date in this regard.

It is regrettable that the scheme to build a 40-bed hospital six miles south of Olds on an ideal site, has collapsed for want of support. The people of Didsbury and Carstairs apparently are not interested in a co-operative plan which would give them better hospitalization. Well, that's their funeral. —Olds Gazette.

SAM REIBER PASSES AWAY SUDDENLY CHRISTMAS DAY

Profound gloom was cast over the entire community when it was learned that Sanford E. Reiber, aged 48, manager of the Builders Hardware Store at Olds, had died suddenly on Christmas Day.

He was born in Tavistock, Ontario, and had lived in Olds for 21 years. He was an adherent of the United Church and a member of the Elks Lodge.

Surviving are his wife, Mabel; one son, Donald with the R.C.A.F. in Regina; three brothers, Harold Davis, of California; Arthur and C. E., both of Didsbury, and his parents, Mr. and Mrs. H. M. Reiber, of Didsbury.

Funeral services were held in the United Church on Sunday afternoon, Rev. A. L. Elliott conducting the service. Mrs. W. D. Craig and Mrs. Chas. Becker sang very feelingly a duet, "Beyond the Sunset", and the choir rendered "Peace, Perfect Peace." The church was filled to capacity and the large number of beautiful floral tributes testified to the esteem in which Mr. Reiber was held.

Forty members of the Elks Lodge attended in a body and took part in the graveside service, paying their tributes to a good Elk. Interment was made in the Didsbury cemetery. The pall-bearers were: A. A. Dunkley, Chas. M. Becker, Wes. Street, W. E. Kemp, O. D. Hanson and J. B. Wilks. Gooder Bros. had charge of the funeral arrangements. —Olds Gazette.

Evangelical Church Notes

My subject on Sunday morning at 10:30 a.m. will be "Why Pray." As the first week in January is the week of prayer, it is fitting to consider what place prayer should have in a person's life. Prayer is communion with God!

The evening service will be held at 7:30 p.m. Sunday school will be held at Jutland at 2 p.m. and divine service at 3 p.m.

WEDDINGS

HOSEGOOD—MONCK

St. Michael's and All Anglican Church, Calgary was the scene of a very pretty wedding on Saturday, December 27th, at five o'clock when Mildred Mae, eldest daughter of Mr. and Mrs. G. Monck of Calgary became the bride of Mr. Douglas Hosegood, youngest son of Mr. and Mrs. James Hosegood of Didsbury, Rev. Chas. E. Reeve officiating.

Large mauve and white chrysanthemums, ferns and palms were used to decorate the Church.

The bride who was given in marriage by her father, wore a lovely gown of white chiffon with long, full sleeves. Her chapel veil was held in place by a wreath of orange blossoms and she carried a bouquet of deep pink rosebuds and lilies of the valley. Acting as bridesmaids were her two sisters, Ellen and Doris, who respectively wore sky blue and petal pink chiffon gowns with matching sweetheart hats. They carried twin bouquets of pink carnations.

Mr. W. Gochee of Didsbury was best man and L. A. C. Wm. Broome, R.C.A.F. was the usher. During the signing of the register Mr. Tom Phillips sang "Through the Years."

The bride's mother chose a soft rose crepe dress with navy accessories, and the groom's mother a green crepe dress with brown accessories, each wearing a corsage of deep pink rosebuds.

After the ceremony a reception for forty guests was held at the Empress grill. Mr. Tom Phillips acted as toastmaster. Mr. F. S. Vine proposed the toast to the bride the groom responding, and Mr. Percy Barefoot proposed the toast to the groom and Mr. W. Gochee responded.

The bride and groom later left for a short trip to Edmonton, the bride choosing for going away a soft rose wool dress with dark green coat and brown accessories.

BLAIR—HALLMAN

A very pretty wedding took place at the home of Mr. and Mrs. Wesley Hallman in Red Deer, Alberta on Dec. 26, 1941 at 3 p.m., when their daughter, Evelyn Ruth, became the bride of Mr. Charles Elliot Blair, son of Mr. and Mrs. S. Blair of Red Deer. The groom is a member of the R.C.A.F. and is at present stationed at Dafoe, Sask.

The bride, dressed in rose crepe and carrying mauve chrysanthemums entered the room which was appropriately decorated for the occasion, on the arm of her father, to the strains of Mendelssohn's played by Mrs. McLaughlin. The bridesmaid, Adel Hallman, sister of the bride, wore soldier blue and carried carnations.

The groom was supported by his brother Leonard. Rev. C. J. Hallman, of Didsbury, cousin of the bride, performed the ceremony in presence of about 25 guests. During the signing of the register, Mrs. Maynard sang, "Love Never Fails."

At the reception which followed the ceremony, Rev. Mr. Hallman sang a solo and Mrs. McLaughlin rendered several piano selections. A delicious buffet luncheon was served after which the happy couple left on the evening train for a short honeymoon in Edmonton. The best wishes of their many friends are extended to Mr. and Mrs. Blair.

Appoint New Leaders For Boy Scouts.

At the meeting of the branch on 27th December, the Legion had the opportunity of hearing Mr. Evans McCormick, Dominion Field Commissioner of the Boy Scout Association, speak on scouting generally and on the work being done by boy scouts in assisting the distressed people in the bombed areas in Britain.

The local branch of the Canadian Legion is the sponsor for the Boy Scout Troop and the Cub Pack in Didsbury. For sometime, owing to lack of leadership, the scouts and cubs have not been active, but the Legion is now glad to announce that three public spirited men have stepped forward to fill the breach. Ed. DeMann, who will be scoutmaster and Charlie Geiger cub leader, assisted by Chas. Mortimer.

The Legion is behind these men wholeheartedly and it is hoped that the parents of the scouts and cubs will take a friendly interest and let us have a real live enthusiasm for the best boys organization in the world today. It is not permitted to exist in Germany or Italy. May it be very much alive in Didsbury.

It is expected that in the near future there will be a Scout-Parent-Legion affair which will bring all together under the leadership, for that evening only, of the Field Commissioner.

Weddings

A marriage of interest to friends in Didsbury took place at the Central United Church, Calgary, on Saturday evening, January 3rd, when Dorothy Eileen, youngest daughter of Mr. and Mrs. J. E. Hugel, was married to Pilot Officer Harold A. Stackhouse, R.C.A.F., formerly of the Royal Bank Staff, Didsbury, by the Rev. Melville Aitkens.

The bride wore a smart ensemble of black and red figured crepe with a fur turban and a corsage of red rose and lilies of the valley. The bridesmaid, Miss Margery Shandera, wore a frock of airforce blue with a corsage of talisman roses.

Pilot Officer Ewing Smith attended the groom.

A reception for immediate friends and relatives was held following the ceremony at the home of the bride's brother, LAC C. M. and Mrs. Hugel. The room decorated with pink and white streamers and the attractive tea table was centered with white baby mums and pink carnations flanked by pink tapers in tall silver candle sticks.

Mrs. J. E. Hugel, mother of the bride, and who poured the tea, wore powdered blue winter wool and a corsage of talisman roses.

Pilot Officer Stackhouse left Monday for Charlottetown, P.E.I., for further training, and Mrs. Stackhouse will follow in several weeks.

Light Weight Hogs Not Wanted

The Canadian Bacon Board have instructed the Packers not to kill any hog that will not dress 130 pounds.

This means that local shippers can not ship hogs under 190 lbs local weight as their is no sale for them.

Community Telephone Bridge and Whist.

On Friday evening, January 16th, a Telephone Bridge and Whist Party, town and country wide, will be held in aid of the local Red Cross.

Homes have been offered throughout the town and country and a large attendance is expected. Some of your friends will invite you to come and compete for the grand prizes.

Golden Wedding Anniversary Celebrated

On December 22nd, 1941, Mr. and Mrs. Theo Reist of Didsbury celebrated their 50th wedding anniversary at the old home east of town.

The sons and daughters of Mr. and Mrs. Reist with a few friends enjoyed the 12 o'clock noon dinner which was served on a table decorated in white and gold under a canopy of gold and white decorations. A three tiered wedding cake was the centerpiece. All the family was present with the exception of Mabel, Mrs. C. W. Green of Kuna, Idaho. The honored couple were at home to their friends in the afternoon, many of whom called to extend best wishes and congratulations. Some lovely gifts and remembrances were presented as tokens of the love and respect of the friends and relatives for Mr. and Mrs. Reist. Many cards, letters, and some telegrams were received from their more distant friends.

Mr. and Mrs. Reist were married in New Dundee, Ontario, on December 22, 1891, and came to Alberta in the spring of 1899, homesteading on the farm where they have lived ever since.

Masons Instal Officers.

The annual installation of officers, King Hiram Masonic Lodge was held on Monday, Dec. 27th, when Rt. Wor. Bros. A. Brusso and Dr. J. L. Clarke acted as installing officers.

After the installation a banquet was held at the Knox Church basement.

The following officers were installed:

Wor. Bro. R. Barrett	W.M.
Wor. Bro. J. Topley	I.P.M.
Bro. J. W. Wordie	S.W.
Bro. J. D. Thomas	J.W.

Obituary.

FLORENCE BERSCHT

Florence Victoria Berscht, aged 18 years and 7 months, daughter of Mr. and Mrs. Ed Berscht, passed away on Thursday, January 1st at the home of her grandmother, Mrs. C. Maek, in Didsbury after a severe heart attack.

She was born Didsbury on May 25th, 1923, and lived all her life with her parents at Elkton and received her Education at the Fallen Timber school.

She is survived by her father and mother, one sister Mildred, and four brothers Wilbert, Arthur, Howard and Clifford, all at home.

The funeral services were held at the Evangelical Church, Didsbury and the interment took place at the Didsbury cemetery. Rev. A. M. Amacher had charge of the services. Funeral arrangements in charge of Durrer Funeral Home.

WILLIAM WATSON

William Watson, aged 77 years, passed away at the home of his brother, Mr. George Watson, on Sunday, January 4th, after a long illness.

Born at Dunbeath, Caithness county, Scotland, he came to Canada 12 years ago to make his home with his brother and has since resided here.

His only immediate survivor is his brother George at Didsbury.

The Funeral Services were held at the Durrer Funeral Home on Wednesday afternoon and the interment took place at the Didsbury cemetery.

United Church Notes.

From now until the West-erday services will be held at the homes of the following families. Interested persons should cut this out and tack it up in a convenient and prominent place.

January:	
11th Mr. and Mrs. W. Herbert	
18th Mrs. B. Morphy	
26th Mr. and Mrs. A. Jackson	
February:	
1st Mr. and Mrs. F. Jackson Sr.	
8th Mr. and Mrs. Alex Buckley	
15th Mr. and Mrs. W. Herbert	
22nd Mrs. B. Morphy	
March:	
1st Mr. and Mrs. A. Jackson	
8th Mr. and Mrs. F. Jackson Sr.	
15th Mr. and Mrs. Alex Buckley	
22nd Mr. and Mrs. W. Herbert	
29th Mrs. B. Morphy	

CARD OF THANKS

We wish to express our thanks to our neighbors and friends for their kindness and sympathy expressed during our recent bereavement, also for the many flowers.

Mr. and Mrs. Ed Berscht and family

Secondary Materials

War has brought about many changes and among them is the increasing importance attached to the salvaging of waste materials. "Junk" once a term used with some derision, has become a foremost factor in our war effort. There are probably few homes in the Dominion which have not been cleared of unused metals and other things which we are asked to save, and there are few householders who do not thriftily save newspapers, rags, fats and bones, for the collectors who doubtless appear regularly for those articles now designated as "salvage."

That these efforts on the part of individuals in all parts of the Dominion must in no small way help in our war effort is apparent when we consider that certain guns can be made entirely of scrap metal, and that the addition of scrap to pure iron ore increases greatly the production of steel.

The value of paper, cardboard and cartons is also very great. At present thirty-five per cent. of the paper produced in Canada is going into the war effort, and the importance of avoiding waste of any paper or cardboard is very great. Rags, too, are very valuable. Last year four million dollars' worth of rags were imported into Canada for use in ammunition and explosive factories, and in airplane plants, where the necessity of large supplies of rags is essential for cleaning tools and other purposes.

Important Items

Fats and bones also have their part in furthering the war effort. Last year one million dollars' worth of bone products were imported for use in sugar refineries, for fertilizers, and other purposes for which it is essential. Fats are used for making glycerine, a very important material in war-time, and in making soap, so that every piece of fat and bone is an important item for defence.

Planes of the Commonwealth Air Training Plan, constantly in our skies, remind us of the need for aluminum. Canadians have cut the domestic consumption of aluminum to one-fortieth of the peace-time level, but when we are told that it takes twenty-eight thousand pounds of aluminum to make a bomber, and eight thousand pounds for a fighter, we know that not a scrap of aluminum must be wasted.

Work Of Sorting

It is interesting to note that the important work of sorting and preparing these materials for their return to the industries where they are required, is aided by an organization of junk dealers of the Dominion. These men have had long experience in sorting metals, papers and other articles into the right class for the purpose to which they are to be put. The value of this work is realized when we learn that there are over a dozen kinds of aluminum alloy, seventy-five kinds of scrap iron and steel and nearly forty types of waste paper. Dealers are experienced in sorting these materials quickly and accurately and their service to the Dominion in this regard is now very great.

Early in 1941 the Minister of National War Services called a meeting to organize these dealers with the object of opening more widely the existing trade channels for the return of secondary materials to Canada's war effort. An association was formed known as the Canadian Institute of Secondary Materials. The newly formed body was given a charter by the Secretary of State and it now works in close co-operation with the Federal Department of Salvage in carrying on the valuable work started in the homes of every community in the Dominion. The importance of this part of our war effort has been emphasized many times, but too much attention cannot be given to its value. In Germany the value of salvaging waste materials has long been recognized, and the people have been compelled to co-operate in this regard. Let us show that by voluntary effort we can help our country to maintain its large production of war materials and to conserve our foreign exchange.

CANADA NEEDS YOU

We see everywhere to-day recruiting posters declaring to the men of our country that "Canada Needs You!" The challenge does not apply only to men wanted for the fighting forces but to every citizen of Canada. To the housewife it says "Canada Needs You" to economize; to the business man to accept restrictions willingly; to the school teacher to train pupils to become responsible and loyal future citizens; to the factory worker to increase production by efficient work; to every healthy, able-bodied man to be a blood donor.

We all have a part. We still live in a free country. We are still free to listen to any radio station we wish. We are still free to put our nation's need before our personal need. True freedom is not wangling something for ourselves but giving the best that we are and have to our country. Grumbling and criticism about taxes and restrictions are sabotage and undermine our country's strength. Cheerfulness and a willing acceptance of all regulations help to build morale. Canada needs us to be morale-builders where we are—in our homes, in industry, and in every phase of life.

Canada needs each man and woman to so live to-day that they are giving their all spiritually, physically and materially to win the war, and in the winning of it to build for reconstruction. Canada needs you and me—the common people—the twelve million or so of us—to give the sort of teamwork that co-operates with our government to build and maintain that invincible power—a united nation!

Doing Great Work

Achievements Of Engineering Profession In War Effort Are Remarkable

The Dean of the Faculty of Applied Science and Engineering of the University of Toronto lifted the veil slightly to reveal some of the remarkable achievements of the engineering profession in speeding up the Dominion's war effort. While much that has been accomplished cannot be made public as they are strictly war secrets it can be announced that in the machine tool industry its capacity has been increased by more than 800 per cent.

And in these war days a lot of folks have discovered that two have to live cheaper than one.

A Generation

The Average Length Of A Generation Placed At Three To A Century

What is the average length of a generation? The question permits of different answers, according to the point of view. If we start with a cohort of 100,000 babies just born and trace them through life, we may regard these as one generation, and their average length of life, which according to present conditions is about 63 years, would then be the length of a generation.

But generations of this kind overlap, because the replacement of each such generation by children begins while the generation is still in being, and the average interval from mother to daughter is about 28 years, from father to son about 33 years. This is what is usually thought and spoken of as the average length of a generation; in round numbers, there are thus three generations to the century.—Metropolitan Life Bulletin.

Holland is the name of a country, of a linen fabric, of a city in Michigan and of a district in Lincolnshire, England 2443

SO YOU'RE GOING TO DO A PLAY?

And it is to be comedy or farce as a foil for the taut nerves of to-day's life. Be sure it is racy and bright with no long pauses between speeches. Now for the play. Is it one act or a three act?

"We want a whole evening's performance, and so will have to have a three act play," you reply. "Why? Have you ever tried three one act plays?" "Three! In one small community," you ask. "Oh you don't know rural communities, Mary Ellen!" Maybe not, but Richard, in Northern Saskatchewan, entered three one act plays in the Class B Drama festival at North Battleford last year, and won several awards. They felt that this was a chance for many people to take part, and give a variety in their entertainment. What's more they did their plays at various surrounding towns, before a number of clubs in the afternoons, and came into the festival with great confidence gained by a number of public appearance. They used the whole stage as if it was their own front room, and after all isn't that what the stage is. The fourth wall is removed so that the audience can peek in on what is going on and enjoy it with the actors. Sometimes when the play is building to a good climax, the audience is so tense that they do not move until the problem on the stage is solved and then with a sign of relief they relax and sit back again in their seats. When you feel sympathy running between the audience and those on the stage then you know without anyone telling you that your show "has rung the bell" and that each show of the three on the programme has been worthwhile. And you the sponsor have given a large number of people a chance of using an escape mechanism in the form of a play for their taut nerves for twelve rehearsals when they lived someone else's life and enjoyed it. Comments may be sent to Mary Ellen Box 326, Regina. But enuf sed this time. See you next week.

SELECTED RECIPES

AUNT SUE'S CORN FLAKE DROP COOKIES

1/2 cup shortening
1 cup brown sugar
2 eggs
1 1/2 cups flour
1/2 teaspoon soda
1/2 teaspoon baking powder
1/2 teaspoon salt
1 cup chopped nut meats
1/2 cup chopped dates
2 cups corn flakes

Blend shortening and sugar thoroughly; add eggs and beat until light and fluffy. Sift flour, soda, baking powder and salt together; add to creamed mixture with nut meats, dates and corn flakes; mix well. Drop from tablespoon onto greased baking sheet, flatten with spatula, and bake in moderate oven (375 degrees F.) about 15 minutes. Yield: Three dozen cookies (2 inches in diameter).

AUNT JANE'S KRISP MAGIC MACAROONS

1/2 cup condensed milk
1 cup shredded coconut
1 cup oven-popped rice cereal
Mix condensed milk, coconut and oven-popped rice cereal. Drop by spoonfuls onto well-greased baking sheet, about 1 inch apart. Bake in moderate oven (350 degrees F.) 10 minutes or until delicately browned. Yield: 1 1/2 dozen (2 inches in diameter).

Craftsmen Of China Produce Rare Masterpieces In The Midst Of Conflict

While the very heavens continue to rain destruction all around them, the painstaking craftsmen and jewelers of modern China continue to produce their masterpieces of indestructible beauty and art. There is on exhibition a collection of treasured jade that is a joyful symbol of the inevitable survival of beauty.

The order for the 14 pieces that comprise the collection was placed some three years ago by a well-known cosmetician's salon to create the most beautiful and luxurious toilet set in the world. Jade was selected for jade is a substance more difficult to fracture than a diamond, as the royal stone most fitting to symbolize everlasting beauty. Each cunningly, unerringly carved cosmetic jar and perfume bottle, each exquisitely wrought vanity, tray, mirror, lipstick container, is a tribute to the gifted men of modern China who so conscientiously and skillfully ply their art in face of the most terrifying obstacles the civilized world has known. Piece by piece, during the three years, this precious dressing-table set came to America. Each piece was part of the death-defying caravans which daily pass over the Burma Road and find their way across the sea in ships. Each piece was part of the precious cargo of exports which is eagerly awaited by lovers of Chinese treasure. It is valued at \$25,000.

As each piece arrived, it was sent to famous American jewellers, to be mounted in 18-karat gold. Subtly and cleverly, the fine artisans in America reproduced the exquisite carving in jade, in equally exquisite etching in gold. The jade itself is of the most precious type, the brilliant, translucent emerald green called Fei Ts'ui, or Kingfisher feather green.

Jade was considered a healing stone by the ancient Chinese, and has been used as the royal stone, dating from the Chou Dynasty, 1112-1225 B.C. up to the present day. It was used in court ceremonies, and placed in the tombs during the funeral rites and has always had a very profound religious significance. In addition, it has been the most frequently used individual material of precious decoration in China. The most elaborate pieces imagination can paint, filled the imperial palaces and were in the possessions of the royal princes during all the periods and dynasties through which China has passed and survived.

All jade is not green, of course. There are many shades and nuances of shades. Aside from the green shades, jade comes in grey black, blue, yellow, reddish and cream tones, lavender, snow white, cinnamon red, beeswax, mutton fat, pork fat and many other subtleties of tone. The most precious kind is the

emerald green which was sought and found for the new Chinese set. It is by the amount of this particular shade of green in the stone that buyers judge the value of a block of jade. If the buyer happens to be lucky he may reap a small fortune. On the other hand, if only a small amount of the emerald (Kingfisher feather green) or the apple green (next most precious of the greens) shows up, he may take a very large loss.

There is no stone in the world that has such a wide range of value. You may buy a ring stone of fairly good size, but of low quality, for as low as \$5, whereas a piece of the finest quality will run into the thousands depending on the color and the translucency. It is this particular green color and maximum translucency which makes the recently-created dressing table set so precious.

Despite the increasing demand for jade, the supply of the superfine pieces made of the kingfisher feather green is extremely small. In fact, if in one year four tiny cabachons of fine quality appear, the jade collectors feel pretty lucky. That is partly why it took three years to assemble sufficient uniformly precious jade for the Chinese collection. Then there is the length of time required for execution of the finished jade. The stone itself has the hardest fibre texture of any stone but topaz. It can only be ground with abrasives and the sharpest of sharp boring tools, such as diamond drills, wire saws, iron circular saws. Nor is it possible to tell how long each piece will take to be shaped and carved to its final beautifully polished and finished state.

The value of jade is not predicated upon its popularity with foreigners, as it has been held at tremendously high prices by the Chinese themselves for centuries. It is constantly mentioned in the writings of Chinese philosophers and poets. In the words of Confucius, "If jade is highly valued it is because, since very olden times, the wise have likened it to virtue." For them the polish and brilliancy of jade represent the whole of purity; its perfect compactness and its extreme hardness represent the sureness of the intelligence; its angles, which do not cut although they seem sharp, represent justice; the pure and prolonged sound which it gives forth when one strikes it, represents music. Its color represents loyalty; its interior flaws, always showing themselves through its iridescent brightness represents the heavens; its admirable substance, born of mountain and of water, represent the earth. Used alone, without ornamentation, it represents chastity. The price which all the world attaches to it represents the truth."

True Democracy

Canadian Soldier Pops In For A Cup Of Tea And Meets A Princess

Sergeant W. Y. Searles, a six-foot Canadian, had little idea of what was in store for him when he dropped into the palatial new Halifax Y.M.C.A. Centre for a cup of tea.

He probably sensed that there was something afoot, since there were so many workers and officials about; but imagine his astonishment when the Princess Royal entered.

In due course, the tall sergeant was presented, and the Princess had quite a long chat with him. She noticed his medal-ribbons, and asked several questions about his service in the last war.

Afterwards, Sergeant Searles still somewhat bewildered by it all, paid a pretty compliment to democracy when he said: "You pop in for a cup of tea and meet a Princess." Leeds Yorkshire Post.

Very Special Meals

Each dish served at the table of Frederick the Great was prepared by a different cook, and each had his own private kitchen in which to prepare his special offering.

Sir Walter Raleigh was beheaded as a spy.

Willing To Be Tested

New Zealand Soldier Making Good Human Guinea Pig

Army doctors in Egypt believe that Lieut. K. Douglas, of Napier (N.Z.), has something in his blood which may result in the discovery of an antidote for venomous insect bites. To test their belief they have turned Douglas into a "human guinea-pig" for experiments, says the Australian Press Bureau. Subjected to bites of fleas, mosquitoes, and sandflies, Douglas showed no ill effects. His arms were flayed with stinging nettles, but he proved immune. Doctors have taken a pint of his blood for examination. In a letter home, Douglas said after experiments with the blood, he would be willing to submit to a scorpion's sting to determine whether he was immune from stronger venoms. I am getting quite enthusiastic about the experiments," he wrote.

Area Is Restricted

Under a government order issued by the transport minister, Lord Leathers, to economize on railway transportation for instance, cocoa made in one English area will not be available in areas where another company manufactures the same product.

For Winter Bloom

Care Of House Plants During The Winter Months

It is not uncommon to hear persons ask why their house plants have little bloom in winter, says J. G. Allaway, Gardener, Dominion Experimental Station, Scott, Sask. To promote winter bloom in flowering house plants of a perennial nature, a resting period in the late summer is distinctly helpful. This implies pruning or cutting back the plants when repotting can be advantageously practised. By imitating nature the plants produce new growth on which the desired bloom is invariably produced.

A mixture of two parts of good garden loam soil, one part of rotted manure, and on part of sand will generally fulfil the soil requirements for potted house plants. This will allow both air and water to pass through the soil reasonably well. Provision for drainage can be made by placing a layer of stones or similar material on the bottom of the pots where holes are located for excess water to pass through.

As a general rule, flowering plants need all the sunlight that can be obtained, especially during the winter months. Ferns should be placed where they will have an abundance of light but not direct sunlight. The foliage plants are more tolerant of insufficient light but, in the winter, they may be placed in direct sunlight.

One common cause of failure with house plants is that they are kept in rooms far too warm. Sixty to sixty-five degrees Fahrenheit is the ideal temperature for house plants. However, a good rule to follow is to strive to keep the room as cool as is consistent with personal comfort.

Windows should be tight so that a direct draught does not strike the plants. A dry atmosphere is to be avoided because it not only stunts the plants but it favours the increase of certain pests such as red spider and thrips. Moisture in the air around the plants can be increased by standing the pots in shallow trays filled with pebbles, gravel, or moss and keeping this material moist.

Letters For Stalin

Post office censors in Great Britain receive thousands of letters a week for Joseph Stalin. The letters, from admirers of the Russian leader, are forwarded to him but the ministry of information declined to disclose the route.

Had To Be Careful

When poisoning was an art, many nobles in mediaeval times kept their salt cellars locked as a precautionary measure as they were a popular receptacle for the lethal dose.

The world's cheapest sidewalks are in Marble, N.C., yet the rare made of in Marble, N.C., yet they are made of marble taken from the surface quarries a few yards from the walks.

Two types of tank, the Valentine Cruiser Mark III, and the M-3 Infantry, are being built in Canada.

The Royal Post Office Handles Vast Amount Of Mail For The Royal Family

Name Is Deceiving

Some Interesting Facts About Iceland And Its History

Iceland is not a land of ice, but rather a land of fire and snow and green fields. Its climate is modified by the proximity of the gulf stream. Great lava beds make much of the land unproductive. Its great industry is fishing. There are no railroads but trucks and automobiles are used where roads are available. The many tumultuous streams of the land are a potential source of power and of late electricity has been very widely installed.

Iceland is unlike any other land in having no prehistoric remains, never having had inhabitants of a primitive savage race. The first colonists were high born chieftains who brought with them from their native land, Norway, an already advanced civilization. From 864 when it was first discovered, until about 1400, Iceland was an almost ideal state—it was the first democracy of Europe; for the first time in history Christianity was adopted without the shedding of a single drop of blood; and in the 12th and 13th centuries when most of Europe was practically bare of literature, many of the finest gems of Icelandic literature were written.

In the national museum at Reykjavik, the capital of Iceland, there are some very old pieces of painting on canvas and on wooden boards, and also vellum manuscripts with illuminated manuscripts. The subjects are all religious. There are, of late, three outstanding Icelandic painters, Jon Stefansson, Blondel and Kristinn Peltvisson. All show that they have been inspired by the rugged scenery of their own land. Wood-carving of a high order is an old art in Iceland. There is a school devoted to its teaching. Chests, box covers, bed-boards are elaborately carved, and also less ornamental articles of practical use are cut out—tubs, vats and tools that are really indestructible. Iceland has an outstanding sculptor Einar Jonsson, who, after spending some time in the U.S.A. returned to Iceland and continued the fine work he had done in America. He is curator of the museum which bears his name and houses some of his best work.

Another advantage in buying tractors for farm use is now disclosed. A farmer near Cooksville, Ont., claims two of his horses were shot by pheasant hunters.

The Dominion Tariff on coal imported from U.S. has resulted in greater tonnage from Alberta mines this year.

More than 45,000 campers made use of public campgrounds in natural parks in Western Canada during July and August, 1941.

A royal post-office, complete with modern teletype and telegraph circuits, handles the vast mail and telegraph communications of the Royal family and officials who live and work in Buckingham palace.

Windows and doors of the post-office, which has branches operating in other royal residences, suffered slight damage when the palace was bombed by raiders, but the efficient and hard-pressed staff maintained services without interruption.

The war has made many precautions and safeguards necessary to insure secrecy, and the full story of the court post-office must await until peace is re-established. Wartime duties of the staff, which works during all raids, include the sounding of air raid alarms and summoning civil defence personnel.

Purpose of the post office is primarily to deal with the King's mail and that of the Royal household and court officials. But it also provides facilities where postal orders and stamps can be purchased, letters and parcels posted, telegrams sent and telephone calls made.

The telephone switchboard, designed to overcome "leaks" is fitted with an apparatus so operators cannot overhear conversations after they have made the required connection. Cables and telegrams are received and transmitted by means of the latest type of teleprinter and telegraph circuits. Telegrams written by the King and Queen do not pass beyond the court telegraph operator.

Extensions link other Royal residences and important government departments. Post-offices are maintained at Windsor Castle, Sandringham and Balmoral Castle. In addition, the Buckingham Palace post-office controls postal and telegraph work at Royal Lodge, Windsor, Marlborough House, York House, St. James' Palace and 145 Piccadilly street, London, the home of the King when he was Duke of York.

Special events require the staffs to work at high pressure. The Silver Jubilee celebration of King George V. and the coronation in 1937, will not be forgotten by telephonists and postal clerks.

The King's Jubilee mail was enormous. The variety and coloring of the stamps of many different countries were ample evidence of the world-wide enthusiasm aroused by the celebration. More than 10,000 telegraph messages were handled. Every sender of a telegram within the British Isles received a reply from the King or one sent by a private secretary. Overseas messages were acknowledged, the more important by cable and many by a personal letter from the King's secretaries, or His Majesty's representatives in the dominions or colonies.

The coronation, however, outstripped all previous records. The rush of mail and telegraph traffic spread over many months. Cables dealing with matters affecting overseas representatives, visitors and other arrangements, were forwarded and received from every part of the empire. Most of them were of unusual length, in code and cipher.

Field Crops

Gross Value Produced In Canada Shows A Decline

The Dominion bureau of statistics estimated the gross value of principal field crops produced in Canada this year at \$649,058,000, a decline of \$33,308,000 from the 1940 value.

Wheat was said to be the principal factor in the decline. The sharp reduction in wheat production resulted in a decrease to \$160,953,000 from the 1940 wheat value of \$287,620,000.

This year's values for all other crops except buckwheat, grain, hay and sugar beets showed an increase over last year's estimated values.

There were enough orange trees in California and Florida alone to equal one tree for each family in the United States, according to the 1940 census.

It's the most difficult thing in the world to forget what you want to forget.

Simple Stitchery For Baby's Cover

Household Arts by Alice Brooks

Carriage Cover Mainly Lazy Daisy Stitch

PATTERN 7137

Cute for the baby, isn't he? And he looks so charming on a carriage or crib cover that you'll want to embroider him right away! Do the lazy-daisy flowers in shades of pink or blue or use both colors. Pattern 7137 contains a 13 1/2 x 13 inch motif; one 5 x 11 1/2 inch motif and four 3 1/2 inch motifs; color schemes; materials needed; illustrations of stitches.

To obtain this pattern send 20 cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Avenue E., Winnipeg, Man.

There is no Alice Brooks pattern book published.

TOBRUK

(Editorial from the New York Times
 of November 23rd, 1941).

The siege of Tobruk will rank with Dunkerque as one of the epic stories of this war. It appears to be ending now, not in surrender of the dogged garrison that held it through more than seven months of almost continual shelling from the air, but as that garrison fights its way toward British rescue forces sweeping westward once more across Libya. To all who admire bravery, to all who love freedom, the deliverance of the men who kept the Union Jack flying above their improvised desert fortress will be cause for rejoicing.

The British troops entered Tobruk in January, 1941, when General Wavell's first offensive swept over Libya. But in April, when mechanized Axis units drove the British forces back behind the Egyptian frontier, the Tobruk garrison was bypassed and left with all its land communications severed. There was still the sea and the British Navy, however, to supply food and ammunition. It was a strange sort of siege. Mail from home arrived more or less regularly, and some troops of the beleaguered garrison were taken to London on furlough last summer.

Still there was hardship and fighting aplenty. The situation of the Australian and Indian troops was always precarious, for they were constantly in danger of being wiped out by superior Axis forces. The colonial settlement they held on the paved military highway that skirts the shore from French Tunisia to Egypt was of considerable strategic importance. It was a salient deep within the enemy lines and a dagger that military observers held would have to be blunted before the Axis forces could attempt a major offensive against the Suez. The men of Tobruk have added materially in the defense of Egypt and they have added another glorious chapter to British military history.

ALBERTA LINKS TO NATIONAL HIGHWAY

Completion of the Trans-Canada highway as a national motor road is assured in 1942, road crews in northern Ontario having made good progress on the final sections.

When this road is finished, motorists will be able to travel directly across the Dominion. As has been claimed, this will mark the opening of a new era in the history of Dominion transportation.

In order to complete this final link of the national road, the Ontario government is spending over \$6,000,000.

The Alberta Motor Association has moved to have the provincial government give due regard to the changed situation when there is an all-Canada highway.

Meeting in Calgary last month, the A.M.A. passed the following resolution:

"Resolved that the government of Alberta, in view of the coming opening of the Trans-Canada highway between eastern and western Canada, be urged to make all possible highway improvements looking to the increasing opportunities for connecting the highway system in the southeast and eastern part of this province with the neighboring highways in the United States and province of Saskatchewan."

CANADIAN WOMEN'S ARMY CORPS
 "The Women's Smartest Service"

The World of Wheat

By H. G. L. Strange

Director, Research Department.
 Searle Grain Company, Ltd.

This year for the first time Registered First Generation seed of Regent wheat is available in small quantities. Farmers who desire to improve the quality of their crops of Regent should, I suggest, try to secure a few bushels of this First Generation seed. It is an improvement over the older strains.

Another good variety that farmers might now consider is Renown. The new First Generation seed of Registered Renown is the progeny of the improved foundation stock recently produced by the Rust Research Laboratory, Winnipeg. Renown is a fine variety. Up until now it has had one defect—the yield has been less than the yield of other rust-resistant varieties. The yield of the new Registered strain, however, is decidedly better than the yield of that strain of Renown that hitherto has been available. Those, therefore, who like Renown for its fine bright plump kernel and for its other good qualities, might consider securing a little of the new First Generation Registered seed. In some districts the new strain of Renown has given as high a yield as the yield of any other variety. Some farmers tell me it is their favorite variety.

The following factors have tended to raise price: The U. K. Cereals Import Board has made large purchases of Canadian wheat recently; the Egyptian government intends to import Canadian and Australian wheat to overcome a serious wheat shortage; winter crops in Europe are reported to have received a poor start owing to unusually cold weather and shortage of labor.

The following factors have tended to lower price: Food supplies in the U. S. and Canada are of record proportion; large amounts of Government-owned and damaged wheat has been offered buyers in the U. S. recently; the weather continues favorable for harvesting in Argentina with yields good; grain shipments across the Pacific are suspended indefinitely owing to war conditions.

Notes From the West

Among those visiting at their homes during the two holidays were Corporal E. Lowrie of Camrose, Pte. D. Sutherland of Calgary, Lt.-Corporal M. Campbell of Red Deer, A.C. 2 John Toole of Edmonton, Pte. K. Lucas of Calgary, Pte. L. Banting of Camrose and Colin Hogg of Calgary.

Wallis and Bob Lucas joined up in Calgary making 3 sons and one son-in-law Mr. R. Lucas of Ekton in the services.

Mr. and Mrs. E. Parker entertained on New Year's night, it being their 30th wedding anniversary.

Mrs. E. Lowrie entertained some of the boys on Friday evening. After supper, games were played honors going to Lt.-Corporal Campbell.

The deepest sympathy of the entire district is extended to Mr. and Mrs. E. Berscht in their sad bereavement.

Miss L. Sissons of Vancouver visited with her sister, Mrs. H. Hosegood during the holiday.

Pte. Ted Farrant of the R.C.O.C. Camp Borden was home on final leave and Pte. Kenneth Farrant was home on New Year's leave visiting their parents, Mr. and Mrs. H. Farrant.

Mr. and Mrs. Ray Muirhead of Rosedale B.C. spent two weeks with the latter's parents, Mr. and Mrs. H. Farrant, and returned to Rosedale on Friday.

Mr. and Mrs. Frank Kynel of Coleman spent Christmas holidays with his parents, Mr. and Mrs. Joseph Kynel of Ekton. The first Sunday with Mr. and Mrs. August Krebs and Mr. and Mrs. Lee Sanderman, dinner guests at the Kynel home.

They are stopping in Calgary to spend a few days with relatives, also to visit Pte. John Kynel who is confined in the Col. Belcher Hospital, before going back to Coleman where Frank is employed as locomotive engineer with the International Coal and Coke Co.

Also visiting with Mr. and Mrs. Kynel were Mr. Thompson Allen and family of Calgary.

Around Alberta

Alberta farmers will do well to double their barley acreage in 1942. This is the advice of Hon. D. Bruce McMillan, minister of agriculture. In a statement the minister said 3,000,000 acres of barley will be needed to feed the greater hog population and provide normal reserves. He pointed out that barley production was not keeping pace with hog production and that, since Alberta is in a premier position regarding the production of hogs for Britain, the barley situation becomes both a responsibility and a vital national interest.

Major Charles A. Lyndon, former provincial livestock commissioner and a member of the Hong Kong Garrison has been posted as missing. Receipt of a wire to this effect by his wife is said to be the first intimation regarding any Canadian Soldier of the forces present at the historic defense. Major Lyndon was connected for many years with the Alberta militia. He is a former squadron commander of the 19th Dragoons and a staff officer of M.D. 13. On the outbreak of war he immediately went "active," was in England, Iceland and later Hong Kong.

Hon. Solon Low, provincial treasurer, said on the eve of 1942 that so far as was contemplated, no new tax levies nor increases in present levies will be introduced in the coming fiscal year. Cabinet consideration of the budget was scheduled to get under way early in the new year.

Provincial licensing authorities have given attention to the possibility of salvaging old license plates and have offered to co-operate fully with federal authorities in any campaign to this end. Some 8,000 plates are returned to the province yearly on license refund applications, and these would be readily turned over.

SEEDTIME and HARVEST
By Dr. K. W. Neath
Director, Agricultural Department
North-West Line Elevators Association

Seed Fairs

For the next two or three months we shall all be thinking about seed. Farmers will first decide what acreage must be devoted to wheat, coarse grains, corn, grass, clovers, roots, etc. Then a decision respecting the most suitable variety of each crop must be made. Then, if new seed is necessary, will commercial seed do, or should registered or certified stocks be secured and how much?

One of the best ways to obtain and to give ideas on these problems is to attend the Provincial Seed Fair.

The Alberta Seed Fair will be held in Edmonton on January 21st and 22nd, and an Agricultural Short Course will be held in conjunction therewith.

University Farm Week has become one of the most important agricultural gatherings in Saskatchewan. This year it will be held, as usual, at the University during the period January 13-16. Besides the Seed Fair, other important events included in Farm Week will be annual meetings of the C.S.G.A. (Saskatchewan branch), the Saskatchewan Field Husbandry Association and the Saskatchewan Agricultural Societies Association.

It is anticipated that the Manitoba Provincial Seed Fair and Short Course will be held as usual, but the date has not yet been set.

This year, again, the Agricultural Department of The North-West Line Elevators Association will erect an educational exhibit at Provincial Seed Fairs. The chief factors concerned in grading seed will be illustrated, and germinating seeds and magnified weed seeds will be displayed.

WORLD HAPPENINGS BRIEFLY TOLD

The office of production management has frozen sugar stocks in the United States and limited new deliveries by importers and refiners to 1940 levels.

Washington has passed and sent to the senate legislation providing an optional death penalty for sabotage which exposes any persons to serious injury.

Vancouver's Chinese will be supplied with lapel buttons to distinguish them from Japanese. Q. P. Jack, president of the Chinese Benevolent Association, announced.

An inkstand of Georgian silver, given by Rudyard Kipling to his sister, Mrs. J. M. Fleming, in 1890, has been presented to the British destroyer Kipling by Mrs. Fleming.

BUDGET MODE IS SLENDERIZING

By Anne Adams

4777

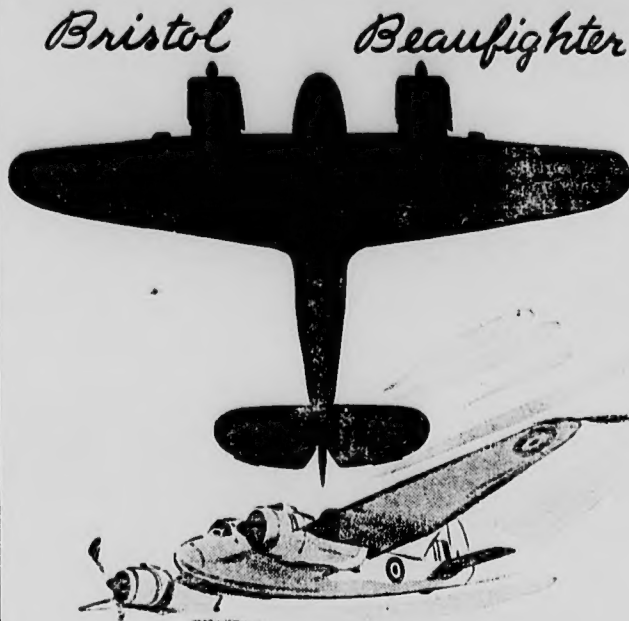

Calling all budgeteers... calling all larger figures... Pattern 4777 is designed just for you by Anne Adams! First of all, it has that practical front buttoning that is such a favorite for easy laundering and also gives you trim up-and-down lines. Then it is fitted just where you need it, through the bust and the waistline—by the bias side sections of the bodice. They are repeated in the back. The effect is even more stunning in checks or plaids. Make a short-sleeved version for work, in a brisk cotton with perhaps a contrast collar; another long-sleeved frock in wool for all-around wear. The Sewing Instructor illustrates every step in finishing this pattern quickly. Order it now and join the Sew-Your-Own Brigade!

Pattern 4777 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Sizes 36 takes 4½ yards 35 inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

PLANES of THE R.C.A.F. and how to spot them

APPROVED BY THE ROYAL CANADIAN AIR FORCE

CLAIMED to be the fastest medium bomber in the world the Bristol Beaufighter is designed for rapid production. It can be used as a bomber, torpedo carrier and mine layer. These aircraft are being turned out in large numbers in Australia.

There are two 1,065 Bristol air-cooled engines and the airscrew has a controllable pitch. The wing span is 57 feet, 10 inches, and the length is 44 feet, two inches. The speed is about 300 miles per hour.

There is a power-operated gun turret on top of the fuselage and there are forward machine-guns. The crew of four is made up of a pilot, gunner, navigator and radio operator.

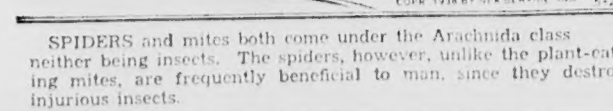

Customers' queues to get into stores have been declared a nuisance in England.

If a woman's intuition is so dog-goned good, why in heck does she hafter ask so many questions?

Artificial worms bearing a remarkable resemblance to the genuine have been made for fishermen. They can be cut into desired lengths.

Travellers in Uruguay now prefer motor coaches to steam trains.

THIS CURIOUS WORLD By William Ferguson

SPIDERS and mites both come under the Arachnida class neither being insects. The spiders, however, unlike the plant-eating mites, are frequently beneficial to man, since they destroy injurious insects.

Ready For Uprising

Armies Of Czecho-Slovakia, Norway And Holland Well Organized

Joseph Balina, chairman of the Czecho-Slovakian employment office in London, said that great underground armies in Czecho-Slovakia, Norway and Holland are ready to support British forces when they make a landing on the continent but that France and Belgium are not ready for an uprising.

Work being carried out by the Czecho-Slovakian group includes sabotage and espionage. Already the army has cut production of the Skoda munition plants to 42 per cent. of the former output, he said.

Reports on military and industrial moves come with amazing speed to Britain, Mr. Balina said. "Why, if I broadcast one day from London to the Czechs, I get a report the very next day on how I sounded."

He said that on one occasion carefully compiled and precise figures on the amount of oil being received by Germany from Rumania were supplied to the British authorities within a few days.

Bombing And Gunnery School

Badges Are Presented To The Third Graduating Class At Lethbridge

Wing Commander W. A. Jones, commanding officer No. 8 Bombing and Gunnery School, Lethbridge, Alberta, presented badges to the third graduating class of the school on December 7th. Among the graduates were wireless operator air gunners and air gunners, and their names follow:

Carl Phillips Beairisto, Sedgewick; William Water Bigeray, Redwater; John Gilbert Hampton, Elnora; Thomas Winship, Rosedale; George Thomas Barr, Banff; John Renyard Norton, Lockwood; Walter Elliott Bennett, Onoway; Stephen Diakow, Rosedale; Claude Alma May, Cardston; R. A. Mattern, Ponoka; Roy Stanley Erickson, Ferintosh.

Cushions To Match

Cushions upon which guests reclined at the colorful banquets of ancient Rome were changed with each course of the meal. The change was made to match the color of the food they were about to eat.

For war work, British scientists have been arranged into teams each headed by a scientist. There are 27 teams, with 112 scientists assistants.

The age group 15 to 19 years contains more persons than any other five-year period.

MICKIE SAYS—

YOU GOT ELEPHANTS IN YOUR ATTIC! SURE! WHITE ONES—N' JEVER STOP TO THINK THAT FOLKS WILL PAY YOU GOOD MONEY FER THEM DUST KETCHERS? LET OUR LIL' WANT ADS CHASE TH' ELEPHANTS OUT OF YER ATTIC!

CRIPPLED CHILDREN

There are at least 24,000 crippled children in Canada, Reg. W. Hopper, Executive Secretary of the Ontario Society for Crippled Children, said, and a very high percentage of crippling is preventable.

While it is true that some children are born with deformities, most crippling is a result of such diseases as Infantile Paralysis, Tuberculosis and Rickets. He urged that a greater effort should be made to prevent the 80% of unnecessary crippling.

Probably parents dread Infantile Paralysis more than any other disease. This is largely a hangover from the past when nobody knew that the deformities which often follow this disease could be prevented. Modern medical practice has established the fact that contracture deformities resulting from paralyzed muscles need never exist. A great deal has been learned as a result of the Infantile Paralysis epidemic of 1937. Some 3,000 cases occurred in Ontario in that year. Through the action of the Provincial Department of Health standardized treatment was made available to all. A close follow-up of the results show that cases brought under proper care where the parents give their intelligent co-operation, produced no deformities.

Tuberculosis of bones and joints is a frequent cause of deformity. On the basis of present knowledge, it was explained, Tuberculosis should be wiped out in a generation. All too often, it was said, this disease is carried direct from a tuberculous cow to human beings by means of raw milk. Pasteurization of raw milk consumed by humans will stamp out this important cause of crippling. Ontario already has a compulsory pasteurization law. The incidence in Tuberculosis in Ontario is showing a marked decline year by year.

Rickets, once the important cause of crippling, is also rapidly disappearing, Mr. Hopper asserted. The bow legs and hunchbacks so often encountered a generation ago are rare because parents are learning the elementary rules of child hygiene. The most important single factor appears to be the regular use of cod-liver oil daily during the first few years of life. This simple measure has the remarkable effect of enabling children to produce strong and healthy bone structure.

The speaker paid tribute to the excellent health teaching in the schools which is making a new generation more conscious of their own needs.

Poles Being Conscribed

To Do Construction Work For Nazis On Russian Front

To replace sappers in the German army on the Russian front, all young men in Poland up to the age of 25 are being conscripted. They will be attached as an auxiliary force to the German army there constructing roads and bridges. Young women are to take the place of these men in the forced labor factories of the General Government section of Poland.

Canada's Indians and Eskimos total only about 1 per cent. of the population. 2443

REG'LAR FELLERS—Very Particular

BY GENE BYRNES

NIGHT COUGHS

YOUR CHILD'S coughing at night—caused by throat "tickle" or irritation, mouth breathing, or a cold—can often be prevented by rubbing throat and chest with Vicks VapoRub at bedtime.

VAPORUB'S poultice-and-vapor action loosens phlegm, relieves irritation, helps clear upper air passages, thus tends to stop mouth breathing and invite restful sleep. Try it!

VICKS VAPORUB

"ALL THAT GLITTERS"

—By—
ANNE TEDLOCK BROOKS

CHAPTER I.—Continued

Ransome Todd saw more than this as he gazed out into space. He saw the legend of other generations of the Randolphs. There had been wealth in the family who had first settled on the thousand-acre tract; wealth, English traditions, aristocratic living.

The row of stone slave cabins at the back of the plantation had never been torn down, but stood as mute testimony of better days. Phoebe's old mother could remember the things her sightless eyes no longer saw. When Ransome and Tamar had been younger, they sat listening to the wrinkled old woman recounting the tales of happenings in the Big House.

Ransome would always remember the moonlight flooding the terraces, the cabins standing out in the whiteness and Gran mumbled her stories. The little colored boys and girls of the help kept a respectful distance in the background while Gran spun the yarns.

"Ol Massa—he wuz yo' gran' pappy, honey," Gran would nod toward little Tam—"Ol Massa was a fine man. Us slaves respected him and woked out' fingahs to de bone fo' him. But he's good to us. When comp'ny come, de feasts I'd hep cook up! Roas' whole pigs wif apples in dey moufs, young turkeys brown and juicy on de platte's, sizzlin' fish out ob de Chestatee, what mah ol' man done ketchef fo' de sun was up! An' de pies, an' de cakes, an' de—"

On and on and on, droned Gran's voice.

These things Ransome remembered. He saw still the sword in its scabbard that Ol Massa had used, and remembered Gran's telling of his return. "He died fo' de week was out, honeys. But he sat one long las' hou' lookin' at de Chestatee, and seein' de colts down in de meadow. An' de las' thing he say was, 'De Cricket Hill's full o' gol'!"

"An' so it is! Ah knows! Gran done seen de nuggets big as pe'simmons. Mah ol' man used to bring 'em home. Ah found 'em in his pants pockets. He's good fo' nothin' less'n ah watched 'im."

Gran would turn to Tamar and caution, "Don't let nobody ever get Cricket Hill. Honey. It's full ob yellow gol'!"

Before the rush to California the Cricket Hill was already a producer. Knox Randolph's father had sunk a private shaft into the hillside and taken out enough gold to satisfy himself.

Tamar's father had never worked the mine. He had seen for himself the vein that was perfectly visible; rich, sparkling ore in the old shaft. But mining cost money!

Ransome Todd turned in anger to Tam.

"You'd let the major come in and

lease that ground for \$300 a month, when his strike will net him \$10,000 a day. It's incredible that your father would be such a fool!"

Tamar sprang to her feet. "You can go now, Ranny. And don't show that handsome face of yours on Randolph soil again!" She whirled toward the house.

Ran gasped at his words. He had always had the greatest respect for Tam's father. He ran after Tamar. But on her winged feet she was already up on the great stone verandah. He caught her just as she reached the big white door. He imprisoned her in his hard arms.

"Tam, honey, I'm sorry. I didn't mean it. Honestly, I didn't!"

Her blue eyes were blazing. "Trying to interfere with us when we need the money so! And calling my father a fool!"

"Gee! Tam, you're beautiful," He tipped up her chin. He kissed her red lips, but they returned no pressure. They were hot with scorn.

Ranny stared into her eyes for a long moment. He had never kissed her before. He had always been fond of Tam. But suddenly he knew that he was more than fond of her, and the knowledge stunned him. He felt himself trembling.

He dropped her hands. In a flash she reached out and gave his cheek a stinging, fiery slap, whirled into the house and slammed the door.

Tamar ran for the stairs and bumped into Mr. Christopher Sande as he came down, travelling cases in hand.

Sande stared at her. Tears trembled on her black lashes and her eyes were the bluest he had ever seen.

"I'm terribly sorry," he said. "I should have been paying more attention."

"It was entirely my fault, Mr. Sande," Tamar said truthfully, starting up the stairs.

Sande hurried down and out to the car. As he placed the bags in the tonneau he heard a horse's whinny and saw a handsome man getting into the saddle.

Ransome Todd sat on his horse a long moment. He gave the house a look and saw the young engineer putting the bags into the car.

In anger, he brought his crop down smartly on the flank of Tah-lahenka II. The horse jumped and was off in a gallop.

Confrutely, Todd bent forward and rubbed the sleek, shining coat. "Sorry, old man. I'll never do that again." With a quick gesture he threw the crop, and it landed in the red dust at the side of the road.

Coming into the little sleepy town, Ranny guided Tahlahenka II across the square and threw his bridle to a Negro boy standing by. "Watch him, Pete, and I'll give you a nickel."

He ran into the bank building, and up the side stairs. He didn't pause to knock at the door marked "Sheridan & Sheridan, Attorneys-at-Law." He burst into the room. "Dick!" he cried to the slumbering young man at the mahogany desk. "Dick! You've got to help me."

Richard Sheridan opened his eyes and moved his feet over on the desk to make room for Todd's. But Ransome stood erect and said, "Now listen carefully. You've got to break a contract."

(To Be Continued)

Strength Not Known

Little Information Available As To Size Of Japan's Fleet

The United States Navy, the largest and most powerful in the world, has taken on an unknown quantity when it engages the Japanese fleet in the Pacific.

Each year less and less information about the imperial Japanese navy leaks through to the outside world. It is known, however, that the Japanese have at least eighteen capital ships, three of them over 40,000 tons launched during 1939 and 1940; twelve aircraft carriers, twelve first class and 21 second class cruisers, 87 destroyers and 56 submarines.

In all instances actual figures are undoubtedly higher. Jane's Fighting Ships, authority on the world's navies, said in its 1940 edition, the latest compilation.

Very Special Meals

Each dish served at the table of Frederick the Great was prepared by a different cook, and each had his own private kitchen in which to prepare his special offering. 2443

Glamour Is Demanded

British High Command Faces Problem With Its Army Women

The women who help Britain's war effort are making many sacrifices—but they demand the right to be glamorous.

So the High Command for two years has had to face such problems as distributing lipstick, stream-lined uniform skirts and dealing with women majors who wear captain's insignia because they are prettier.

Now the High Command is preparing for more trouble. A big recruiting drive is under way to raise the strength to 200,000.

There was the time recently when authorities had to issue special orders modifying regulations against women in uniform wearing jewelry. The orders said: A T.S. can wear engagement, wedding and signet rings but they are expected to wear the stones turned toward the palm so they do not show.

Then there was the order permitting women to wear slacks on duty. A.T.S. uniforms were streamlined with padded shoulders, because recruiting figures fell off. The girls were allowed to substitute their regulation caps with new ones—smart, brown forage caps trimmed with green, which they cock over one eye in chic fashion.

Another regulation permitted the anti-aircraft range-finder operators to wear lanyards over their shoulders. And the A.T.S. officers were allowed to wear Sam Browne belts.

There was one girl—a tough sergeant-major of the A.T.S.—who rewarded her star drill unit by taking it to afternoon tea.

And War Office old guards still get red faces when they hear an A.T.S. messenger report to her commanding officer.

The latter returns the salute and then asks:

"What is it you want, dear?"

One problem the High Command has not solved. Women officers who attain the rank of major, or above, frequently have to be persuaded to wear the epaulettes of their station. Most women officers prefer to be captains. They wear three shining golden "pips" on the shoulder. A major wears only one dark-colored crown.

GEMS OF THOUGHT

EXPECTANCY

All earthly delights are sweeter in expectation than in enjoyment; but all spiritual pleasures more in fruition than in expectation.—Feltham.

We part more easily with what we possess than with our expectations of what we hope for: expectation always goes beyond enjoyment.—Home.

When the destination is desirable, expectation speeds our progress.—Mary Baker Eddy.

With regard to one's work the desirable feeling is always to expect to succeed and never to think you have succeeded.—Thomas Arnold.

The little done vanishes from the sight of him who looks forward to what is still to do.—Goethe.

By every part of our nature we clasp things above us, one after another, not for the sake of remaining where we take hold, but that we may go higher.—H. W. Beecher.

Good Latin Scholar

Latin being used in diplomatic documents in England as late as that time, John Milton was given the duty of translating into that language all letters to foreign rulers in 1649.

An ox has only one-half the carrying power of a camel.

In Their Spare Time

Britain's Fire Fighters Made Thousands Of Toys From Debris

Men and women of Britain's national fire service in their spare time made many Christmas toys. Debris picked out of ruins of bombed buildings were turned into thousands of playthings during the lull in heavy Nazi raids. Bright, shiny paint supplied by the Red Cross effectively hid the origin of the material from which they were made.

Cloth rationing threatened to restrict the fire service's output of dressed dolls until bins were distributed in London department stores and customers were asked to throw in any useless clothing or rags.

The toys were not for sale, but were given away. Christmas Day some showed up in the homes of children whose parents cannot afford the prices that toys command in the shops. Others went to nurseries where live the children of women in war plants.

Few of the amateur toymakers had ever tried their hand at it before the bombing lull brought them hours of inactivity after the mad hustle of a new months ago.

Most of them took such a liking to it that their officers say they could not get them away from their make-shift workshops. With tools lent them, they turned out swings, play pens, seesaws, hobby horses, model airplanes, trains and ships, dolls, dolls' furniture and real furniture which has helped in children's war nurseries.

For the most part, the finished toys were outstanding pieces of work. One London dealer examined one great collection, promptly offered the equivalent of \$9,000 for it and was refused.

HOME SERVICE

KEYBOARD CHART THE WAY TO LEARN PIANO QUICKLY

How To Join The Magic Circle?

Not enough attention? One way to get attention is to deserve it! Playing the piano you always have admirers.

Not that the piano is hard to learn; it isn't. You can learn to play entertainingly with the aid of a keyboard chart that shows at a glance which keys to play for which music notes.

So that from the very start you know how to read music! And our diagram shows how you can play popular pieces without long hours of practice. Just simplify by playing the melody line with your right hand and with your left some easy harmonizing chords.

Yes, those numbers below our melody line represent chords. Each number corresponds to a numbered key on your chart. Look at your chord numbers, then at your chart—and play.

You soon learn all the basic chords you need this way—and you know so many pieces that people think you've played for years!

Our 24-page instruction book has tables of chords and full-size keyboard chart. Gives lessons in rhythm, elements of music; has three pieces for practice.

Sends 15c in coins for your copy of "Quick Course in Piano Playing" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

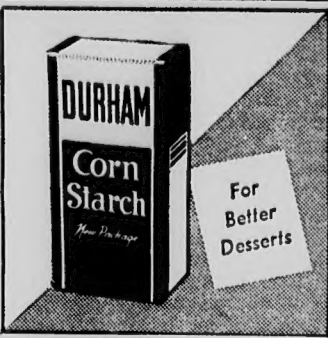

The following booklets are also available at 15c each:

- 101—"Life Begins at Forty"
- 199—"Teach Yourself to Sing"
- 106—"21 Ways To Earn Money At Home"
- 164—"Party Games For All Occasions"
- 116—"How to Choose and Care for Your Dog"
- 146—"Home Course in New Ballroom Dances"

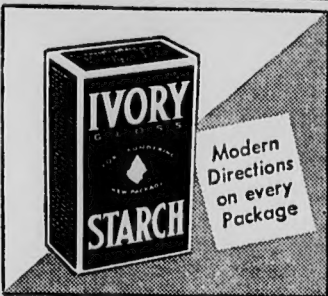

An automobile legally is defined as a wagon in the state of Montana and, as such, it is exempt under state laws from attachment for a debt.

London's Charwomen

Their Courage Ranks High Among Heroic Defence Workers

Three thousand of London's charwomen have been mobilized for entertainment purposes. Admiral Evans is administering a fund which has been given by an anonymous donor for the purpose of providing relaxation for civil defence workers, and not the least of these, according to the Admiral, are the charwomen. Their heroism under blitz conditions has not been bettered by A.R.P. workers, police or any of the other civil workers and thus a show will be specially arranged for them with Ministers of the Crown acting as hosts.

When explaining about the party Admiral Evans gave one example of the bravery and devotion to duty these women have shown. He said that one morning after a heavy bombing he visited a Dominions government office. He spoke to a charwoman who was busily scrubbing. "I hope your home has not suffered?" The woman looked at him with tragic eyes. "Yes, it was blitzed and my children killed last night." Yet a few hours later she was at her humble task.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

During 1939, the Netherlands East Indies yielded 8,800,000 tons of oil, 2.8 per cent. of the total world output.

**"CLEAN OUT" AND
"CLEAN UP" ON HITLER**

LOCAL & GENERAL

A.C. Charles Loader visited friends here during his New Year's leave.

Knox Senior Ladies Aid will meet at the home of Mrs. Durant on Fri., January 9th at 3 p.m.

Mr. and Mrs. Harold Oke spent a week with friends at Regina during the Holidays.

Sam Lee, of Hanna, was renewing old acquaintances with friends here on Tuesday.

L.A.C. Mike Holub of Claresholm spent his holiday leave at his home here.

Miss Florence Chamberlin, who is employed at the Government Administration Building at Edmonton visited her mother here during the holidays.

L.A.C. Lloyd Jenkins who is stationed at Prince Albert spent his New Year's leave at his home east of town.

Annie Holub, who is employed at the Caldwell Knitting Co., spent the Christmas holidays with her parents here.

Bert Buhr who has been working in an aeroplane factory at Fort William, spent New Year's with his folks here. He reports back to work by the 15th.

A.C. Lloyd Ringheim returned to Brandon Tuesday after spending his New Year's leave with his parents and friends here.

Miss June Buhr of High River, spent the Christmas - New Year's holidays with her cousins and friends here.

Miss Irene Mayerchack of Calgary who spent her Xmas holidays with her parents, returned to the city last Saturday to continue her work at the Caldwell Knitting Co.

Pete Booker who come home for Xmas from Fort William where he had been employed in an aeroplane factory, went to Calgary last week and enlisted in the army as a cook.

Mr. and Mrs. Charles Carleton of Tiddale, Sask., are visiting the former's brother, Mr. O. Carleton and family. This was the first Xmas the brothers had together for 40 years.

Bing Crosby and Mary Martin in "Rhythm on the River," is the feature at the Didsbury Theatre this week. A popular musical that will delight the whole family.

An Auction Sale of the effects of the Wm. Dagetford estate and O. Folkmann is announced. Look for the date next week.

An officer from the R.C.A.F. Recruiting Centre, Calgary, will visit Didsbury on January 21st from 1 to 5 p.m. for the purpose of interviewing persons who are desirous of making application for enlistment in the R.C.A.F.

Wing Commander Howard Blatchford, son of Mrs. Blatchford and nephew of Mrs. Ranton, was mentioned in the King's New Year's honor list. He had been awarded the Distinguished Flying Cross.

Dr. Seaman, M.D., L.M.C.C., announces that he will open a practice in Didsbury and will open an office in the Opera House Block. He expects to open his practice on Tuesday next. Telephone Nos. are Office 74 and Residence 77.

Sgt Hugh Roberts of the Canadian Army Training Centre at Grand Prairie, was home on New Years eve.

Mrs. J. M. Fawcett left on Wednesday morning for Edmonton to attend a meeting of the executive of the provincial W.C.T.U. She will spend a few days visiting her mother who is ill, and other relatives.

Miss Cleota Crowe of Coaldale, Alta, spent a few days last week visiting her friends, Mrs. Roe at the McNaughton home. She is a former resident of this district.

Shirley and Sandra Roe, who are attending St. Hilda's School at Calgary, spent their holidays with their mother, Mrs. Roe, and grandparents Mr. and Mrs. Alex McNaughton.

Mr. Wm. McCulloch and Mrs. Mabel Wall were united in marriage at Didsbury on Dec. 26th. Rev. J. M. Fawcett performed the ceremony. They will make their home in Didsbury for the winter.

CURLING NOTES.

The curling season opened up last week with the first event being a mixed bonspiel with 18 rinks being entered.

The following are the results of the play with the winners of the preliminary draw taking one side and the losers the other.

[Preliminary.

Herb Sinclair beat Irwin Klien
Jim Caithness beat D. Sinclair
Ed Watkins beat Frank Heselton
Ivan Weber beat Len Berscht
Dave Edwards beat Geo Law
Jack McCloy beat Bert Fisher
Tom Morris beat W. McFarquhar
Ed DeMann beat Jack Caithness
Jack Topley beat Jack Wordie

Winner's Side
Topley beat DeMann

H. Sinclair beat Jim Caithness
Weber beat Watkins
McCloy beat Edwards
Morris beat Topley

Weber beat H. Sinclair
McCloy beat Morris
Finals to be played later.

Loser's Side
Jack Caithness beat Wordie

Klein beat Dave Sinclair
Berscht beat Heselton
Law beat Fisher
Caithness beat Wordie

Caithness beat Law
Berscht beat Klein
Final to be played later

The personnel of the rinks with first named being skip, were:

Herb Sinclair, Mrs Morris, Bill Ranton, L. Dickau

Len Berscht, Mrs Brinton, Nowak Whitmarsh

Bert Fisher, Vivian Caithness, Walter McCoy, Don Lamont

Jack Caithness, Mrs. Topley, Sam Thompson, E. Cullen

DeMann, Mrs. Len Berscht, Ed Klink, C. Dippel.

Ivan Weber, Jo Booker, Tom Wyman, Mose Loewen

Dave Sinclair, Mrs Garner, Wm. McCoy, W. Turnbull

Jim Caithness, Mrs Ringheim, W. Brinton, W. Klein

Ed Watkins, Mrs. Edwards, Art Thomas, George Dippel

Frank Heselton, Mrs Rennie, E. Clarke, Ron Thomas

Irwin Klein, Mr Buhr, Harold Oke, Mrs Jim Devolin

Jack Wordie Mrs Fawcett, Wm. Gillrie, H. Stevens

Tom Morris, Mrs. W. Klein, Geo Fleming, Cliff Mortimer

Jack McCloy, Mrs Irwin Klein, Pringle, J. D. Thomas

Dave Edwards, Mrs. Wm McCoy, Chas McLaughlin, Mrs Whitmarsh

John Topley, Joyce Morgan, Jack Law, Mrs Blatchford

Wm McFarquhar, Mrs Geo. Law, H. Beveridge, S. Krueger

George Law, Mrs Durant, Chas Geiger, Mrs Turnbull

BIRTHS
